

THE MCPHEETERS' Standard of Furniture

Is what may be fairly called the economic standard. Our furniture is graded to the point of utmost satisfaction and is meeting the ever increasing demand for better furniture. In these times of close buying, when conditions have made men ultra-conservative, the even flow of our business is gratifying testimony to the prestige which our store enjoys.

Bring Them in and Get Your Money

THE OTHER SIDE
The following clipping from the Omaha Bee we reproduce at the request of W. W. Johnson:

"Nebraska suffragists and their arguments were gently lambasted at an anti-suffrage luncheon at the University club this noon given by the local anti for Miss Marjorie Dorman of Brooklyn and Miss Lucy Price of Cleveland two young newspaper women here working against equal suffrage."

"Miss Dorman said that the suffragists are unbusinesslike and unpatriotic, and women in general are too inexperienced to take part in governmental affairs."

"She said that to double the vote would double the time and energy and money needed for machinery of government that for half the price better results can be got from votes of men. She said that states with best laws for women were male suffrage states and that best laws for regulation of child labor are Massachusetts, New York and Ohio."

"The working women need the ballot," begins the day, to regulate the conditions under which they work. Yet the conditions under which the women work in male suffrage states are better than in states where women vote. And all over the country the laws favor the woman rather than the men in industry, while the men are voters and the women unfranchised."

"Housekeepers need the ballot to regulate the sanitary conditions under which they must live," says the theoretical fan. But nearly all such laws are passed because the housekeepers are neglecting the sanitary conditions of their own homes and back yards."

"Then the mothers need the ballot to regulate their children's morals." And the curse of the country is the placing of all the responsibility for the children out in the hands of the school and state instead of upon the mother and the home."

"The teachers are the next class in need of the vote, they claim, in order to secure just wages and to influence the management of the public schools. For years the women of Nebraska have been able to vote for members of the school board, and it is these members who decide and adjust wages for the teachers."

"Then, the taxpayers women need it to protect their property." To protect it from whom? The taxpayers men? Their interests are the same so far as protection of property is concerned. From the non-tax-paying men? Well there are about nine times as many non-tax-paying women who would be granted the vote at the same time with those who pay taxes."

"Finally, all women need the ballot, these arguments continue, because they are concerned equally with men in good and bad government. Certainly they are concerned equally and identically. And anything that is going to be a good thing for the state is good equally for men and women. Therefore, it is simply a duplication of effort to have both sexes engaged in politics."

"All men, it makes its climax, need women's help to build a better government. The whole emphasis of life, you see, is placed by the suffragists upon government. As a matter of fact the men have built just as good and honest government without women voting at their sides as they have done in Colorado or any other suffrage state."

The junior editor of The Ledger is familiar with conditions in Colorado and begs to differ with the young newspaper women. Had it not been for the feminine vote in Colorado, Judge Ben Lindsey and his great work among the children would have been eliminated a few years ago when the "Ring" and its unlimited monetary resources were brought to bear in an election to defeat him. The recent general housecleaning in Colorado politics is directly traceable to the votes of the women who refused to longer countenance the "gang rule" methods of the past. The women of all classes in Colorado have been a unit in working for better conditions both politically and civically and what progress that state has made in the past few years has been through by this influence.

FALL FESTIVAL ON ORDER OF ROUND UP

Roy Cable, formerly of Mexico, writes the Ledger of a fall festival, held in the little town where he lives now, Windsor, Wis. This festival is on the order of the Round Up and although there are only 150 people living in Windsor, there were 2,000 present on the opening day of the festival. The letter follows:

Windsor, Wis., Oct. 18, 1914.

R. M. White & Son, Mexico, Mo.

I am enclosing a clipping from the premium list of our second annual "Fall Festival" which is held at our little village of Windsor, which has a population of less than 150 persons. This festival is held under the auspices of the Windsor Neighborhood Club.

The Club holds meetings Thursday nights every two weeks from Oct. 1 to April 30, and subjects are discussed that are beneficial to farmers as well as the village people. We also have literary programs made up of readings and debates on the current topics of the day, and whenever we want we can secure a lecturer from the extension department at U. of Wisconsin at Madison on any subject which we want.

The first day of the festival we had a crowd of almost 2,000.

My float which won the prize in the parade was just a frame work of lumber built up in the form of a barn and covered with fresh cut corn on the sides and alfalfa for a roof. There were several different kinds of vegetables tied in among the corn. In coops at the sides were Buff Orpington chickens, Giant Runner ducks and on the other side was a litter of Chester White pigs and seven pure-bred Collie puppies which belong to my son, Ezra. At the rear of the wagon were two pure-bred Shropshire ewes and at each side of the rear gate was a ten gallon milk can to represent the cows.

When I tell you that the parade was over one half mile long you will realize that I did not win without opposition.

I saw in last week's issue of The Ledger of some one who sold a cow and calf that brought \$100. I want to tell you of a dispersion sale of grade Guernsey cows and heifers from a dairy at Lake Mills, Wis.

I was only there long enough to see three cows sold but the first one brought over \$100, the next \$95 and the third, \$135. There were 45 head of cows and 23 head of yearlings and two-year-old heifers and the average for the entire lot was a few cents above \$80. We have had plenty of rainfall this year except for about two weeks in July which cut the small grain a little short.

My oats and barley made 30 bushels to the acre. Corn is a heavier crop than usual here and we have had an unprecedented fall.

Oct. 18 and no frost is very rare this far north. Remember us to all of our friends.

Yours truly,
Roy E. Cable.

Arrangements have been made with the Edina Ladies' Concert Band for Round Up Week, Nov. 2, 3, 4, 5, 6, 7. The band, which is composed of 25 ladies, will give three concerts daily, morning, afternoon and evening. This is one of the best bands in the State and will furnish excellent music for the entertainment. A good band is always a good addition to anything for the sake of pleasure and clean amusement.

In 1913 we had snow in the shady places from the 19th to the 23rd. Now it is 65 in the shade.

J. W. Sharp and wife of Brunswick, Mo. are visiting relatives and friends in this vicinity.

Several cavalry horses and several mule colts from here were taken to Mexico Monday. The only sales reported to us were Peter Albright, 2 mule colts for \$110, and F. L. McGee, a mare and mule colt for \$125. Among others from here were W. H. Berrey and Earl Berrey.

Clyde Moore sold a good horse recently to Leo Bros. for \$120.

A class of young people taught by Mrs. C. F. Berrey held a ten weeks' attendance contest in which the boys scored 102 and the girls 98, making an average attendance of 50. The girls entertained at the home of W. O. Dowell and wife Saturday, Oct. 17.

Horace Bybee and family of Santa Fe were the guests of O. T. Cauthorn Saturday and Sunday.

Winner's Share Less Than Last Year.
Because of poor attendance in Philadelphia, the winning players' share of the world's series baseball jackpot is less this year by \$431 than it was last fall. A year ago the Mackmen each received \$324, while the Braves each got \$2813 this season. Financial facts:

Attendance 34,365.
Receipts, \$62,653.
National Commission's share, \$6,265.30.
Players' share, \$56,387.62.
Each club's share, \$11,277.54.
Total for series' four games: Attendance, 111,000.
Receipts \$226,750.
Players' share, \$121,000.94.
National Commission's share, \$22,675.073.
Each club's share, \$40,662.958.
Winner players (each) \$2813.10.
Losing players (each) \$2031.68.

WATTERSON SEES WILSON
Washington, D. C., Oct. 19.—Henry Watterson, editor of the Louisville Courier-Journal, following example set by George Harper, former editor of Harper's Weekly called on President Wilson at the White House yesterday. The meeting marked the end of the controversy between the President and Watterson which arose during Mr. Wilson's prenomination campaign. It is said their talk was largely personal and everything was done by Mr. Wilson to make the meeting free from embarrassment. Every incident of the visit emphasized the restoration of good relations.

Send your boy to our store and let us fit him in that school suit and shoes. We can save you money.

DEAD LIE 3 WEEKS
ON FIELD: BURIED BY PARIS FIREMEN
Paris, Oct. 19.—A large number of firemen, equipped with sort of oxygen helmet, have arrived in the region of Roze to bury the German dead on the battlefield, where they have been lying for three weeks. The firemen brought a large supply of disinfectants with them in order to lessen the danger of contracting disease in handling the bodies. On the battlefield it is said there are between 4000 and 5000 bodies.

Herbert Tucker went to St. Louis this week to bring his car which he left there Veiled Prophet's Week.
